

YEAR 2000 KING COUNTY HUMAN POPULATION STATISTICS

MAP 2 OF 4: 1990 TO 2000 POPULATION GROWTH BY DRAINAGE BASIN

Population Growth 1990-2000

Source Info:
Population: U.S. Census: 1990 STF-1A, 2000 PL94-171
Drainage Basins: King County WLRD standard drainage basins
Historical Population Info: Puget Sound Regional Council
1990 and 2000 Incorporated Areas: King County Department of Development & Environmental Services (DDES)

Basin population estimates calculated using blockgroup level Census data. Population was assumed to be uniformly distributed over an entire blockgroup. Blockgroups were then split by basins and population assigned to the new resulting polygons based on the ratio of the new polygon area to the original blockgroup polygon area, and population summed over the basins.
Poster designed and produced by the Water and Land Resources Division GIS and Visual Communications Unit.
